# CONSTRUCTION TRAINING CENTER SPRING 2019 PIPEFITTING

**Training for Life!**

# GET TO KNOW MORE ABOUT OUR TRAINING FACILITY...

The ABC New Orleans/Bayou Chapter Craft Training Program is accredited by the National Center for Construction Education and Research. The curriculum that we use, Contren Learning Series, was developed by subject matter experts from the industry to train skilled workers. The ABC New Orleans/Bayou Chapter Training Center's primary goal is to provide the construction industry with the most qualified craftsmen today and for years to come.

Education and training will always be a win-win situation for both the employer and the employee. With nationally accredited curricula developed for the construction industry, the ABC New Orleans/Bayou Chapter is training hundreds of men and women in industry related specialties to meet and exceed the most exacting standards in the country.

With the clout and knowledge provided by some of the most qualified instructors in the United States, ABC trained workers tend to receive higher wages, experience more job satisfaction and greater job retention. The employer saves money through an appreciably safer workplace, employee retention, and a significant increase in productivity.

Our craft training program gives individuals the opportunity to become skilled craftspeople, learn a trade, and earn an income. This training provides ABC contractors the ability to employ a highly skilled workforce. ABC New Orleans/Bayou Chapter has the curriculum for over 30 trades, however, we are currently training in the following trades:

- Carpentry
- Electrical (New classes start Fall semester)
- Industrial Electrical 2-year (starts each semester)
- Instrumentation
- Pipefitting
- Welding

Accredited Training Sponsor

## CAMPUS INFO

Campus is open for training 4 nights per week. Classes generally run 2 nights per week for each trainee and are held on either Monday/Wednesday or Tuesday/Thursday from 6-9pm.
